Watermark Learning

Creating Tomorrow's Problem Solvers

Today, employers are looking for more than just job expertise. They're looking for tomorrow's problem solvers—highly-performing professionals who have the practical know-how to solve problems and create enduring results.

Since 1992, Watermark Learning has been cultivating tomorrow's problem solvers through business analysis, project management, and related skill development training.

Watermark Learning is more than just a training company. We provide skill development that enables organizations and individuals to define, analyze, and deliver products and services that solve business problems. We believe that training should be relevant, immediately applicable, and fun. It's our combination of best practices, a practical approach, and an engaging delivery that distinguishes the Watermark Learning portfolio of training services.

Our instructors are authorities and certified in their respective fields, published authors, and distinguished public speakers and, we are an IIBA™ Charter Endorsed Education Provider and PMI® Global Registered Education Provider, which assures you the utmost quality training available.

TRAINING SERVICES

Live Training: Our instructor-led courses cover today's most relevant topics to help you keep pace in today's demanding business environment.

Private Classes: Minimize scheduling hassles and travel expenses by inviting a Watermark Learning expert to your site. Your business team will benefit from a personalized curriculum that incorporates your organization's business processes and corporate culture.

Public Classes: When you need to train one or a few people, our open-enrollment classes provide you flexibility. With several classes scheduled throughout the year, you have many choices and can "sample" our training before committing to an onsite class.

Online Training: We have select courses available for online access. This option lets you focus on core content, saves money and puts you in complete control.

Mentoring/Coaching: Whether for one-on-one or small groups, our mentoring services tackle your unique needs while helping you keep projects on track. Mentoring/Coaching reinforces classroom learning.

Masters Certificate Program: Certification takes you to the next level. Whether your focus is Business Analysis or Project Management, you can receive Continuing Education Units (CEUs) when you enroll in a Masters Certificate Program.

"I highly recommend Watermark Learning for anyone who is looking to gain knowledge, advance their career, and earning power. The professionalism, knowledge, superior training tools and genuine interest in students succeeds in setting Watermark above the competition."

ROBIN ANDERSON

Business Requirements Analysis Training

Learn skills to define product requirements completely and correctly, including hidden requirements that can make or break a project.

As a thought leader in achieving project success, Watermark Learning understands the ever-changing challenges business analysts face—getting requirements right is harder today than ever before. Our courses prepare you to be a top business analyst. You'll learn practical techniques to structure, simplify, and succeed with requirements, and how to integrate best practices into all your projects—improving outcomes consistently.

Advance Your Career

Masters Certificate in Project Management

Become a top project manager with our Masters Certificate Program. Our program applies a practical, hands-on approach to project management with an emphasis on the "what", "why", and "how" of the discipline.

Learn how to:

- Employ the fundamental skills project managers need to be effective
- Align project goals to business goals to achieve success
- Create project plans that leverage the input, understanding, and support of your stakeholders
- Assemble the most effective team and develop your team players
- Control and manage change (not resist it) to ensure changes are beneficial
