

# Watermark Learning Dislocated Worker Program

## Closing the Gap Between Knowing and Doing

For over 20 years, Watermark Learning has assisted dislocated workers in obtaining the most current project management, business analysis, and business process management training. Watermark courses are engaging, relevant, and use industry best practices. We work closely with job seekers to determine the most appropriate training path based on interest, qualifications, skill development, certification needs, and available funding.

As a local, national, and international leader in project management and business analysis training, Watermark Learning is your trusted resource for exceptional training and certification.

## Benefits of Our Dislocated Worker Program

- Discounted pricing for single and multiple classes/programs—we are flexible and will work with individual student budgets. Scholarship seats available.
- Education consultants available to help determine the best training path.
- Professional certification preparation classes for PMP®/CAPM® and CBAP®/CCBA®.
- All of our classes provide certification PDUs and CDUs from PMI® and IIBA® respectively.
- Students earn valuable, employer-recognized CEUs through our Masters and Associate Certificate Programs in Project Management, Business Analysis, and Business Process Management available from Watermark Learning and Auburn University.
- Customized programs/classes for dislocated worker agencies.

## Resume and Interview Consulting for Project Managers and Business Analysts

Should you need to practice or enhance your interview skills, or need assistance in improving your PM or BA resume, we can help. Our instructors can consult with you to boost your interview skills and create resumes that reflect the skills and needs for organizations looking to hire BAs and PMs.

## Comprehensive Training Services

Our principals and senior instructors have been in business, IT, and training an average of 25+ years. Our instructors are authorities and certified in their respective fields, published authors, and distinguished public speakers. We have spent over 20 years developing and delivering our own courses that turn the complexity of industry standards into practical application. Watermark Learning is a woman-owned firm. We are also an IIBA charter Endorsed Education provider, and an “original” PMI Global Registered Education Provider. Our participation in these programs means your learning is based on the latest industry standards and assures you the highest quality training available.

## Certificate Programs

Certification takes you to the next level. With our academic partner, Auburn University, we have programs for [project management](#), [business analysis](#), and [business process management](#). Our programs develop skills for enduring results and set your resume apart from the crowd.

Both the Masters Certificate and Associate Certificate programs provide CEUs from Auburn University and therefore qualify for Federal funding. All courses leading to the PMP and CBAP certifications are WIA program certified. You can view our listing on the [ISEEK](#) website.

## Industry Certification Preparation

If you are ready to take the next step in your professional development and achieve industry certification, our exam preparation resources will help you make the most of your study time by streamlining the preparation process. Our CBAP/CCBA certification and PMP/CAPM certification preparation courses and products give you the edge you need to pass the exam on the first try. In fact, we’re so sure we offer a guarantee. What are you waiting for? We’ll help you get started.
