

Providing the training and help needed for successful re-employment.

assistance for dislocated workers

BUSINESS ANALYSIS | PROJECT MANAGEMENT | INFLUENCING SKILLS

Watermark Learning

ENHANCED PERFORMANCE. ENDURING RESULTS.

Since 2001, Watermark Learning has been assisting dislocated workers obtain project management and business analysis training for re-employment. We work closely with job seekers to determine the most appropriate training path based on interest, qualifications, skill development, certification needs, and available funding. We believe in the dislocated workers program enough that we used the program exclusively to fill two internal positions in our office.

As a local, national and international leader in project management and business analysis training, Watermark Learning is a trusted resource for exceptional training and certification.

Benefits of our dislocated workers program

- Discounted pricing for single and multiple classes/programs
- Education consultants available to help determine the best training path
- Scholarship seats available
- Professional certification preparation classes for PMP® and CBAP®
- Students earn valuable CEUs through our Masters Certificate Programs in Project Management and Business Analysis available from Watermark Learning and Auburn University
- Customized programs/classes for dislocated worker agencies
- Students receive valuable job leads via our job referral network

Work with a trusted leader and get valuable resources

Watermark Learning has been at the forefront of the project management and business analysis industry since 1992—***This is our focus!*** We are a Global Registered Education Provider (R.E.P.) of the Project Management Institute (PMI®) and an Endorsed Education Provider (E.E.P.) of the International Institute of Business Analysis (IIBA®). Our principals have participated in the development and review of the PM and BA Bodies of Knowledge. These affiliations assure you that we are on the forefront of our industry and continually updating and adding new courses to be

responsive to the marketplace.

Our website hosts a number of valuable resources for dislocated workers, including timely articles, e-newsletters, webinars and events, useful industry links, and much more. **Check them out at www.watermarklearning.com/Dislocated-Workers.php**

THE CLASSES AT WATERMARK

helped me during the interview process. I will be bringing all of the workbooks to my new job as reference material. Thanks for all of your help and encouragement!"

Professional certifications to make job seekers more marketable

The PMP® Certification Preparation and CBAP® Certification Preparation courses are 3 days (21 hours) focusing only on study of the PMBOK® and BABOK® respectively and passing the PMP® or CBAP® exam.

Some students need all 35 contact (classroom) hours required to sit for the PMP® exam. However, we offer many 2 or 3 day PMI® certified project management classes to fill the additional hours. We work directly with the student to determine which course/courses will be most beneficial and necessary to prepare for the PMP® or CBAP® exam. There is no one plan that fits every student.

PMP® Requirements

- 4,500 hours of PM experience with baccalaureate degree, 7,500 hours without degree
- 35 contact/classroom hours of PM content are required. Watermark Learning classes qualify for the 35 hours.

CBAP® Requirements

- 7,500 hours of BA experience with or without baccalaureate degree
- 21 contact/classroom hours of BA content are required. Watermark Learning classes qualify for the 21 hours.

Masters Certificate Programs

Watermark Learning offers two Masters Certificate programs with Auburn University. CEU's are awarded by Auburn and upon completion of the program a plaque certificate is issued by Watermark Learning and Auburn University. Each certificate program provides students with a well-rounded skill set in either Project Management or Business Analysis.

Masters Certificate in Project Management

- Project Management Fundamentals (3 days)
- Influencing Without Authority (2 days)
- Estimating & Controlling Projects (2 days)
- Project Risk Management (2 days)
- Project Quality Management (1 day)
- Elective (2 or 3 days)

Masters Certificate in Business Analysis

- Business Analysis Fundamentals (3 days)
- Planning & Managing Requirements (2 days)
- Eliciting Business Requirements (2 days)
- Business Process Modeling (2 days)
- Use Case Modeling (2 days)
- Elective (2 or 3 days)

Mini Masters Certificate Programs

In response to the overwhelming call for certification, Watermark Learning and Auburn University offer "Mini" Masters Certificates in Project Management and Business Analysis.

Mini Masters Certificate in Project Management

- Project Management Fundamentals (3 days)
- Influencing Without Authority (2 days)

This five-day program provides the student with a foundation in project management covering all nine knowledge areas as defined by PMI®.

Mini Masters Certificate in Business Analysis

- Business Analysis Fundamentals (3 days)
- Planning & Managing Requirements (2 days)

This five-day program provides the student with a foundation in business analysis covering all seven knowledge areas as defined by IIBA®.
