

Masters Certificate in Business Analysis

About Watermark Learning

Since 1992 we have provided training that turns the complexity of industry standards into practical application of business analysis, project management, agile, and business process management. Our courses concentrate on critical skills to enhance performance and lead to enduring results in organizations. Our classes are practical and engaging rather than academic. We apply our extensive industry experience to concentrate on the skills needed to be effective. Our instructors facilitate interactive case studies in class that energize students to learn and motivate them to perform.

NOTE: Classes may also be purchased individually at standard pricing.

Become a high-performing Business Analyst with the Masters Certificate in Business Analysis from Watermark Learning in conjunction with Auburn University. Close the gap between 'learning' and 'doing' with our engaging classes of 16 or fewer students taught by certified practitioners who are also experienced facilitators. Skills learned and practiced in class reflect IIBA® industry best practices and are immediately applicable to your real-world business analysis work. Our training program applies a practical, hands-on approach to business analysis with an emphasis on the "what", "why", and "how" of the discipline.

"I wanted to let you know I accepted a job yesterday working as a Business Change Analyst. The classes at Watermark definitely helped during the interview and all the workbooks will be brought in to my cube as reference material. Thanks for all your help and encouragement!"

Watermark Learning student,
Laura F.

"This program goes beyond supplementing on-the-job training—it will help me to stand out above my peers. I understand the business analysis process better than before attending classes. I have already demonstrated higher productivity at work. I am also better prepared for the CBAP test."

Watermark Learning student,
Richard
