

Project Management

Masters Certificate in Project Management

All courses endorsed by PMI®

"PM as it is taught at Watermark is applied science and art, combined together. I highly recommend classes at Watermark Learning to all."

Mahv Ayub, Access Genetics

"I particularly liked the handouts and appreciated the instructor's flexibility in doing exercises in small groups and facilitating group discussion. I learned the different ways of analyzing, approaching, and communicating with stakeholders. I will sit down with my manager to review Capstone, approaches, and engage her in determining best ways to approach specific stakeholders."

Eileen Hsu, EKOS Corporation

NOTE: Classes may also be purchased individually.

Become a high-performing Project Manager with the Masters Certificate in Project Management from Watermark Learning and Auburn University. Close the gap between 'learning' and 'doing' with our engaging classes of 16 or fewer students taught by certified practitioners who are also experienced facilitators. Skills learned and practiced in class reflect PMI® industry best practices and are immediately applicable to your real-world project work. Our training program applies a practical, hands-on approach to project management with an emphasis on the "what," "why," and "how" of the discipline.
